ABOUT ME

Consulting focused problem solver with a strong interest in mergers and acquisitions, business case studies, and strategic analysis. Experienced in structuring ambiguous business problems, evaluating strategic options, and collaborating across teams to deliver client-ready insights. Demonstrated leadership through initiative ownership and mentoring students to access scholarships and opportunities.

WORK EXPERIENCE

KIAC Winter School – AI for FinTech

IISc Bangalore Jan 2026

Completed an intensive program focused on FinTech strategy, risk evaluation, and data-driven decision making, applying structured problem-solving frameworks to real-world financial services challenges.

Program Management

CareHack, μ ment June 2025

- Supported planning and execution of a large-scale, multi-stakeholder healthcare hackathon in collaboration with CareRevenue, CareStack, and μ Learn CET, engaging 800+ participants to address real-world healthcare challenges.
- Coordinated a month-long, structured product development program **μ ment**, enabling cross-team execution and progress tracking, resulting in 20+ viable projects and the emergence of 3 early-stage startups.

Entrepreneurship Lead

μ Learn CET September 2024
– July 2025

Led initiatives to promote startup culture through workshops, mentorship, and learning circles that deepened the essence of entrepreneurship.
